

Conference Proceedings Published in Journals 会议论文集-期刊形式

The proceedings papers published in journals are selectively covered from any of the over 12,000 journals covered in *Web of Science*. Papers selectively covered for *Conference Proceedings Citation Index* meet the following criteria:

1. The paper must be identified explicitly as having been presented at a specific conference. 证明用于特定会议
 - a. Complete conference information must be present (Name, Date and Location of conference). 完整的会议信息
2. Meeting abstracts are selectively covered but only from a limited number of high-impact, high-frequency science journals. The great majority of these journals are from biomedical subject areas. 收录部分摘要

The journals from which conference proceedings are selectively covered are all covered in *Web of Science* and meet the selection criteria detailed in this essay: [The Thomson Reuters Journal Selection Process](#).

Conference Proceedings Published in Books 会议论文集-图书形式

Conference proceedings published as books are acquired and selected according to a set of specialized guidelines.

The Thomson Reuters Publisher Relations staff is in regular communication with every major scholarly publisher, and many professional societies and associations. These organizations publish and/or sponsor professional conferences and submit their publications for evaluation and possible coverage in Conference Proceedings Citation Index.

The Thomson Reuters Editorial Development team evaluates each conference proceedings volume according to a set of well-established criteria. They include the following:

1. Basic Publishing Standards 基本出版标准

Editors examine each proceedings volume to insure that basic publishing standards are in place including sequential page numbering, timeliness, international editorial conventions such as fully descriptive article titles, and full cited references, author abstracts, and keywords. 连续页码、时效性、国际编辑规范（如完整的文章标题、参考文献、摘要、关键词等）

2. Content 内容 能够丰富汤森路透的收录范围（学科、子学科、地区），或成果来自有声望的协会或组织

The overall quality of the research presented is assessed, as is the completeness of the cited references. In addition, the editors review the content to ensure that it enriches Thomson Reuters coverage of a field or subfield, or of a geographic region, or that it completes the coverage of the output of a prestigious scholarly society or organization. **Thomson Reuters gives priority to important serialized conferences sponsored by prestigious scholarly societies. The objective is to cover every instance of such conference series.** 有声望的协会赞助的重要连续性会议会更具优势

3. Copyright and Conference Date 版权和会议日期

To insure that the content of Conference Proceedings Citation Index is timely, published conference proceedings must fall into a specific date range.

- For scientific and technical proceedings, the meeting must have been held in the current or previous four years. 科技类会议：4年内
- In the social sciences and humanities, the time parameters are broader. All conference dates are accepted for social sciences and humanities proceedings so long as the volume is a first edition and not ever previously indexed. 人文社科类：无时间限制，只要是第一版并从未被收录

These policies take into consideration the greater time sensitivity of information in natural sciences and technology subject areas and the somewhat less urgent time sensitivity of information in the social sciences and humanities.

4. Conference Name and Location 须有会议名称和地点

Proceedings literature must include the full name and location of the meeting.

Full Papers vs. Meeting Abstracts 全文 vs. 摘要

Conference Proceedings Citation Index lists bibliographic information for full papers and meeting abstracts. Thomson Reuters does, however, consider the source of the full paper or meeting abstract.

- **Books 图书** 有全文的接受，只有摘要、概要或报告的图书不接受

Volumes containing full papers are accepted. Books containing only meeting abstracts, summaries, or reports are not acceptable.

- **Journals 期刊** 摘要可接受

Meeting abstracts, however, are frequently selectively covered from Web of Science journals. As stated above, there are a number of high-impact, high-frequency journals that are sources for these items.

How to Submit Conference Proceedings for Coverage in the Conference Proceedings Citation Index 如何申请CPCI检索

If the conference proceedings are publishing in print only, please send the volume(s) to the following address: 如果只有纸质论文集，请邮寄以下地址

Publication Processing
Thomson Reuters
1500 Spring Garden Street
Fourth Floor
Philadelphia, PA 19130
USA

如果有电子版，请发送至ts.proceedings@thomsonreuters.com，该邮箱也可用于会议收录推荐

If the conference proceedings are publishing online (XML, PDF or a combination of formats) please send information on free electronic access to ts.proceedings@thomsonreuters.com. This email address may also be used if you wish to recommend coverage of a particular conference.
